Winter Parking Reminders

If you parked on a parking pad area or driveway, please dig your vehicle out and move it within 24-hours after a storm so that the Operators can clear the parking pads and driveway.

Snow removal operations occur almost every day. Please avoid parking on the streets. If you **MUST** park on the street overnight, please plan on moving your vehicle as soon as possible the following morning.

During severe storm events, it is imperative that you mark your vehicle with orange snow states as vehicles can become completely buried overnight. If you're a District Snow Removal Customer, stakes are for sale at the District office for \$12.50 each, while supplies last. Call the District office at (209)258-4444 to arrange your purchase
